Principal's PERSPECTIVE

Being a passionate educationist, I always look forward to working with our students, staff and parents to make NEC the best school always.

My commitment to our students is to lead the school with enthusiasm and zeal to enable us to reach our goals. While academic excellence is our major cementing force, the school is also devoted to prepare the student for life, groom them to face the challenges of tomorrow, and encourage them to be socially relevant. We constantly endeavour to live up to this ideology and inculcate this into everything we do, with the aim that we will be able to ensure that the children grow to their full potential, while continuously being groomed to pass out as young men and women to bear responsibility in all walks of life.

We will constantly thrive to mould and enhance a school that focuses on the honing of the child as a whole, strive for the highest academic standards and reflect the same in the society.

With the combined effort of our hardworking and dedicated faculty and support staff, and a very pro-active school management, we are confident that Navkis will continue to evolve consistently.
